COMPANY BACKGROUND

Eco works construction limited is a wholly Zambian owned, managed and registered company with its operation based in Lusaka Zambia. Eco works construction was founded in January 2012 as engineering design, construction, project management and landscape design.

COMPANY POLICIES

MISSION AND VALUES

Eco works mission is to provide our clients with the current mixture of personnel, equipment and altitude necessary to the project in order to give reliable, quality, efficient and cost effective services. Eco friendly and Economical works.

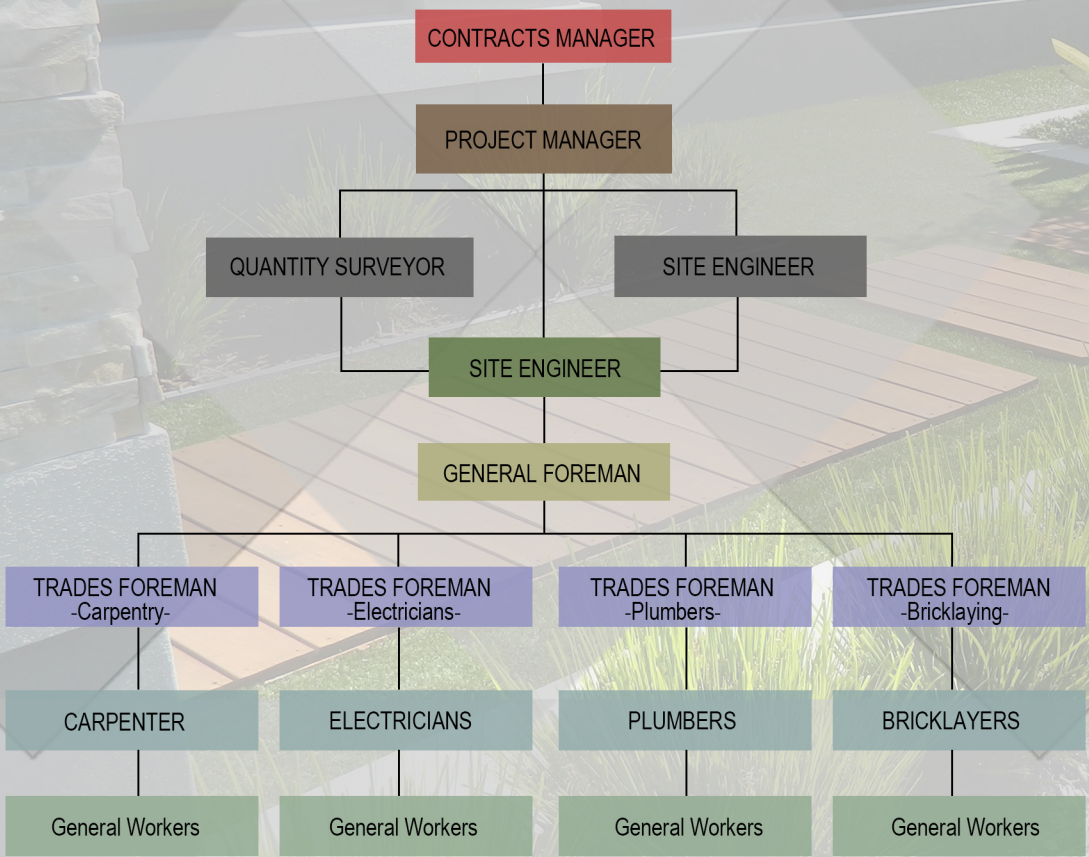

We aim to establish ourselves as a self-reliant and self- sustaining project developer through the inclusion of material research, equipment redevelopment, and redefinition of work methodology as tools to propel our foothold in our sector and region, our primary goal is to target commercial and domestic projects.

Eco works construction ltd values its human resource above all and strive to create a work culture that allows technical growth also financial and social growth of our associated employees for the betterment of their community and environment.

As a company, we also pride ourselves of being able to deliver all contractual obligations within the stipulated period to the satisfaction of our clients, without compromise to the quality and standards set, and this is achieved through meticulous pre-contract planning that allows flexibility of any eventualities.

MEET THE TEAM

HEALTH AND SAFETY POLICY

Eco works construction ltd holds health and safety as two of the companies' most important responsibilities and functions and is regarded as the essential foundation for successful business and social operations Health and Safety is recognized, implemented and maintained as a legal, humanitarian and economic responsibility expectation.

Eco works construction limited management believes that a robust safety approach is indicative of an assertiveness and responsiveness to employees, leading to enhanced productivity and in turn increase bottom line.

ENVIRONMENTAL EDITION ENVIRONMENTAL MANAGEMENT POLICY

Environmental management is one of our companies many responsibilities and should be acknowledged to be of prime importance, it is therefore imperative to support the environmental program.

Eco works construction's policy is that fulfilling of its legal and statutory responsibilities represents the minimum level of achievement in respect of environmental control.

Our core objectives include:

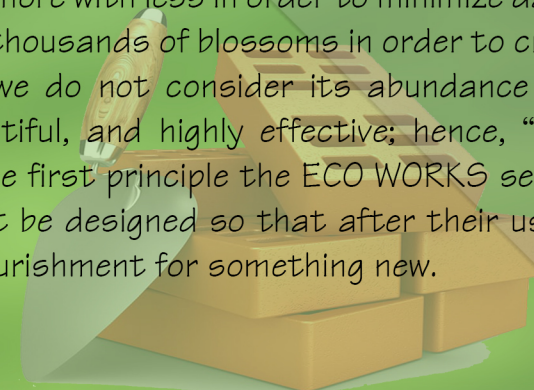

- To comply with the legal and statutory requirements.
- To observe all environment provisions regularly.
- Take responsible care of environment.
- Do nothing liable to cause damage of the environment management and employees of Eco works construction we commit ourselves to actively participate in environmental control regulations.

Eco works construction is an emerging business operating on national level depending on the specific contracts. There is a strategic move to expand the business scope and grow the local capacity by bidding for contracts in private and government domestic and commercial projects in the following areas:

- Construction and maintenance
- Engineering
- Civil works
- Landscape
- Engineering design and renders
- Specification and quantities.

"Cradle to Cradle" Remarking the Way We Make Things.

"Reduce, reuse, recycle" urge environmentalist; in other words, do more with less in order to minimize damage. A tree produces thousands of blossoms in order to create another tree, yet we do not consider its abundance wasteful but safe, beautiful, and highly effective; hence, "waste equals food" is the first principle the ECO WORKS set forth. Products might be designed so that after their useful life, they provide nourishment for something new.
